

Ethiopian የኢትዮጵያ

General information Ethiopian Airlines

Ethiopian Airlines (Ethiopian) is the fastest growing and most profitable airline in Africa. In 2014, IATA ranked Ethiopian as the largest airline in Africa in revenue and profit. In its operations in the past close to seven decades, Ethiopian has been a pioneer of African aviation as an aircraft technology leader providing the first jet service in the continent in 1962, and availing the first African B767 in 1984, the first African B777-200LR in 2010 and the first African and second only to Japan B787 Dreamliner in 2012. Ethiopian commands the lion share of the pan-African passenger and cargo network operating the youngest and most modern fleet to more than 84 international destinations across five continents. Ethiopian fleet includes ultra-modern and environmentally friendly aircraft such as the Boeing 787, Boeing 777-300ER, Boeing 777-200LR, Boeing 777-200LR Freighter and Bombardier Q-400 with double cabin. In fact, Ethiopian is the first airline in Africa to own and operate these aircraft.
